mini c : 100 Great Thai Dishes before purchasing it in order to gage whether or not it would be worth my time, and all praised 100 Great Thai Dishes:

0 of 0 people found the following review helpful. CLOSE, but missing some stuff!By ChefClayAll-in-all a pretty decent book. After attending culinary school I was eager to learn much more than classic French cooking. I worked in southern, Italian, French, along with others but I had the most fun in a Thai restaurant. I learned tons on the flavor profiles and ingredients from the region and even got my first intro to SUSHI (I love making sushi). This book just misses the mark, but still a great addition to my HUGE collection of cookbooks(don't judge me, I can stop at any time)! Most ingredients are represented in this book, but every recipe falls a little flat. There are many soy sauces used in Thai kitchens, preferred oyster and fish sauce, and ingredients like pickled garlic, and fried shallots that are not mentioned in any recipes here. This book does not talk about layering of flavor, and how to build sauces like a house sauce found in all Thai kitchens. This book feels more like a home cooks personal recipe list, and again it feels like ingredients were purposely left out. No mention of MSG (not a bad thing), now mention of mushroom soy sauce or dry sherry. Good book if you know how to fill in the "blanks".

A selection of 100 great Thai dishes with an introduction on tools, techniques, tips ingredients. Featured are snaks soups, salads, curries, in out of the wok, rice noodles, drinks desserts.
