Baking/cooking is his 4th favorite hobby, right after hockey, baseball and fishing. I haven't made any of the recipes but I've read thru them all. Every recipe is on one page with a beautiful color picture of the finished product. The recipes don't call for strange or exotic ingredients. The directions are clear and easy to understand. The pages are smooth and sturdy, should withstand heavy use and an occasional spill. I like that it's spiral bound to lay flat on the counter. In the back is an index listing recipes by category - cupcakes, cookies, bars brownies. The last page has U.S. to Canadian recipe equivalents, baking pan sizes, recipe abbreviations and kitchen measurements. Most of the recipes are from scratch, but some call for brownie or cake mix, a handy shortcut for a 9 year old or a busy cook. I do object to the shortening called for in some of the recipes, but I'll suggest substituting softened butter. I'm no expert but I hope that'll work. If not, his mother will know better. This will be part of his Christmas present, along with Kauffmade Silicone Cupcake Pan and 12-pack Silicone Liners Bundle, Chicago Metallic 26783 Lasagna Trio Pan, 12 by 15 by 3", Silver, Hidden Treasures Mini Baking Pans, three children's cookbooks, some cooking baking utensils and some ingredients (brownie cake mixes, vanilla, chocolate chips, sprinkles, etc) all together in a tote box, a 'kitchen kit' of his very own. And of course 2 hockey sticks (one for ice, one for street hockey), some hockey pucks, some

games and whatever else I run across.6 of 6 people found the following review helpful. My grand daughter now makes cup cakes for ME!!!By Tony GMy 13 year old granddaughter is learning to bake. I saw this book and thought it would be a good first adventure into cake baking, and it is. When I was visiting one morning woke up to the smell of baked goods. My granddaughter couldn't sleep so got up at 5 and had a batch of cupcakes ready for me to taste. What a treat for her old Grand dad2 of 2 people found the following review helpful. Love this book.
