Would not recommend this book to a person new to baking and cake decorating. A couple of recipes were not clear in finishing the recipe. At least one recipe left

out the amount of ingredient to be used. Would have also been helpful to know how many cupcakes the recipe would make in advance. Even with a few problems the recipes are very intriguing and I look forward to trying them out. 2 of 2 people found the following review helpful. This book takes the cake! By Linda Stop looking for the Holy Grail of cake books. You've found it right here. I've been baking for 30 years and I thought I'd come across just about every cake recipe there was. Not so. 101 Best Cake Recipes is full to bursting with cake recipes that are simple and good for everyday all the way to elegant Lavender and honey tea cakes. The frosting recipes are great too. The most interesting recipe I noticed was the Cuban Banana Casserole. Very unique!! 0 of 0 people found the following review helpful. Good ideas By Betne These recipes look very good. The instructions seem to be clear and concise. The recipes also look like they are not too hard. I am anxious to try them.
