I love the variety of recipes in this book which is not all pancakes and waffles made from a mix. It includes a variety of recipes from several categories. This book will probably get a lot of use! Very happy with this book of the series. I love to bake and there are several baking recipes included in this book and the recipes are very easy for people who don't want to spend all day in the kitchen. It even says in the back of the book which brand of pancake mix was used to try the recipes which is always good to know because mixes vary some from brand to brand.4 of 4 people found the following review helpful. Always a hit.By AmandaI get these books for my friends for housewarmings and birthdays. They love them. I love them too. So many good recipes.6 of 6 people found the following review helpful. Pancake recipe bookBy CustomerI have used this cookbook a few times. It's full of recipes and ideas that make you use your own creativity. I used it to make corn fritters and they were delicious!
