C.J.J. Berry : 130 New Winemaking Recipes: Make Delicious Wine at Home Using Fruits, Grains, and Herbs before purchasing it in order to gauge whether or not it would be worth my time, and all praised 130 New Winemaking Recipes: Make Delicious Wine at Home Using Fruits, Grains, and Herbs:

1 of 1 people found the following review helpful. Taking wine making to the next level. By Helen Quinn Lots of

interesting new recipes - will be very useful. This is a good follow up book to Mr. Berry's original. 0 of 1 people found the following review helpful. Three Stars By Susan Solman full of useful information 2 of 2 people found the following review helpful. Fun wine book...like getting secret family recipes from an uncle By AMM Given that making your own wine is kind of a down-home skill, the tone of this book is perfect. Berry takes on an older relative giving you the low-down on secret family recipes tone to his writing, and it works beautifully. The wine recipes are primarily organized alphabetically, although a few that are similar (elderberry wines, for instance) are clumped together that way. It sounds odd, but it makes sense when reading through the book. The book ends with some holiday punch recipes (including wassail) and, oddly, some beer brewing ones. The recipes themselves are easy to understand, but I would suggest in the future that Berry either numbers the steps, bullet points, or splits up into a few paragraphs. They are basically one huge paragraph, which can be less easy to use. Another suggestion I would make is that the wines for the most part don't say if they are red or white, and I'm sure that is something the reader would like to know before getting going in the making. Overall, this is a nice collection of wine making recipes. It feels as if your uncle handed you a book of secret family recipes, just the alcohol variety. A working knowledge of winemaking is assumed, so this is recommended to those who already have a wine making setup and want to try out some new, unique recipes.

Filled with 130 recipes utilizing traditional country ingredients, this book is a must-have for anyone who has discovered the rewards of at-home winemaking.

With Berry's easy instructions, making wine from a great variety of herbs and fruits becomes as easy as it really is. He explains how to make dandelion, ginger, lavender, and clary sage wines, but then turns to the less common with chamomile and rosemary, and even kohlrabi! Even more unusual are wines taken from the pages of history and modernized, such as goat's beard (*Tragopogon pratensis*) and elecampane (*Inula helenium*). Different methods of preparing rosehip and elderberry wines are given. Reading this book, you will have to endure corny wine comics, but worth it. C.J.J. Berry was a leading winemaker who co-founded the first Winemakers' Circle, the National Association, and Amateur Winemaker. This book starts out with a beautiful colorful cover. We begin with a welcome to wine making, how it is increasing in popularity, that it is easier than most think, and a list of items you will need. We proceed with "What Wine Is" with a thorough description. The author then gives us a great "do's and don'ts" list. Then my favorite part...the recipes! Here are some of them: Apple Wine, sounds yummy! Barley and other grain wines...great for the farmers. Blackberry wine, sounds wonderful! More fruit wines too. Wines made from flowers and/or herbs. Coffee wine for coffee lovers. The author also includes some Christmas drink recipes and some Beer and Stout recipes. There is a wonderful index in the back of the book which lists all the different recipes to help find them easily, along with the how to's and where to find them. Another thing I love about this book is the wine related cartoons interspersed throughout the book. From the Back Cover Easy Winemaking in the Kitchen with Backyard Ingredients. Turn what's growing in the garden into delicious concoctions for country wines using traditional ingredients like elderberries, rose hips, and fruits and vegetables. From celebrated brewing and winemaking expert C.J.J. Berry, this classic bestseller, *130 New Winemaking Recipes*, is back in print, offering the at-home vintner easy-to-follow recipes using unique ingredients to achieve special flavors, like figs, rice, and bananas. There are even easy recipes utilizing fruit juice concentrates. Whatever the preference, there's sure to be a recipe that will capture the interest of any backyard farmer- and prompt a festive wine tasting among friends. About the Author C. J. J. Berry is one of Britain's leading winemakers. Co-founder of the first Winemakers' Circle, founding Chairman of the National Association and former Editor-Publisher of the monthly magazine, *the Amateur Winemaker*, he has written several other books on winemaking and home brewing; upon which he is an acknowledged expert, has frequently appeared on television, and is always in demand as a lecturer and wine judge.
