She always comes up with the most creative ideas and the recipes are always super simple to make. Well, she did not disappoint with this book 30 Delicious Poke Cake Recipes.As with her other books about dump cakes and refrigerator cakes, I had no idea what poke cakes were before I read this book. Lori does a great job explaining what they are straight away and the weird name immediately makes sense.Another great thing about this book is that even before she gets into the meat of the book which are the recipes, she has a section for the health conscious which

includes many different substitutions to lower the calorie count of the recipes. This is a nice added touch that you don't find in many dessert style cookbooks. Now, to the real reason I love Lori's recipe books, I have already tried one of the cakes and it was delicious. I made the strawberry cheesecake poke cake with my daughter and she absolutely loved it. As I mentioned before, the recipes are easy enough that you can have your children help out with the pouring and the mixing. Next we are going to make either the strawberry banana or lemon blueberry poke cake. All in all this book is a great recipe book for anyone that loves desserts. Highly recommended! 8 of 8 people found the following review helpful. Mmmmm and Easy!! By Love Creativity I'll admit - I didn't know what a "Poke Cake" was until I found this cookbook and curiosity got the best of me. :) I'm so glad it did! These recipes look fabulous and honestly, I ran out to buy ingredients for the Blueberry Poke Cake right away. My husband is a HUGE blueberry fan, and this is his new favorite cake. These recipes are simple, and Lori gives multiple options for the base cake recipe. You can buy a box mix, use the "from scratch" recipe she provides in the book, or use your own. I appreciate this since I tend to bake from scratch whenever I can - it just seems healthier. Our son is older now, but these recipes would be fun to create with kids. Best of all - they'll be a hit with the whole family. Delicious, easy and fun - it doesn't get better than that. 0 of 0 people found the following review helpful. Has section for those with health concerns and what you can use to substitute for a healthier option. Has recipes for cake mixes if you don't want to buy one at the store. Each recipe has a summary of what the dish is, list of ingredients, multiple ways for directions in how to make the cake part, and the filling and how to assemble and bake. There are NO pictures. Poke Cakes are amazing and fantastic desserts. They exhibit the 4 key qualities of the perfect dessert: They are Simple, Quick, Incredibly Delicious and Fun! Poke Cakes are extremely simple to make. They are made with cake, pudding or Jell-O; gelatin, fruit spreads fresh fruit and a variety of toppings. You are only limited by your imagination in the ingredients you can use. They are really quick to make. You can make a simple but delicious Boston Cream Poke Cake in 1-1/2 hours and most of that time is baking time. Poke Cakes are delicious cakes. One of my favorites is the Strawberry Poke cake which is a white cake with homemade strawberry syrup, homemade strawberry filling and sweetened whipped cream with fresh strawberries on top. The cake is a strawberry-whipped cream explosion that melts in your mouth! Finally, making a Poke Cake is fun for both adults and kids. Kids just love to poke holes into the top of these cakes and fill them with Jell-O; gelatin or pudding. Poke cakes are great projects for the entire family. Included in this book are 30 kitchen-tested Poke Cake recipes. There are also recipes for 3 bake-from-scratch cakes for people who don't like to use cake mixes.
