I especially like the large definition of ingrediants. This allowed me to use spices and vegetables, that I was perhaps not so familiar with, without feeling intimidated. Nothing in this book is extravegent or unrealistic. Instead, Vijayakar included some great, simple, and delicious dishes. I haven't made a single unappetizing dish from this book yet! I highly recommend it.0 of 0 people found the following review helpful. Handy reference guideBy CommentatorPrep time and finding the ingredients to purchase may take longer than the cooking.
