**Debbie Brown : 50 Easy Party Cakes** before purchasing it in order to gage whether or not it would be worth my time, and all praised 50 Easy Party Cakes:

2 of 2 people found the following review helpful. Nice book!By Miranda W.When I ordered this book, I figured it had the same cakes that are shown in other cake decorating books, with very minimal instructions. It was on my doorstep two days after ordering. I was so surprised when I looked through this book! Each cake has very descriptive instructions and a list of needed ingredients and supplies needed to construct the cake. Definitely a book that could be used by beginners! I will be using this book for many years to come.2 of 2 people found the following review helpful. 50 Easy Party Cakes---for young childrenBy CustomerI enjoy Debbie Brown's cakes and looked forward to obtaining

this one. It has a lot of whimsical cakes but I was a little disappointed. Most of the cakes are for very young children and I had hoped for more cakes that could be used for any age. That said, the cakes in this book are a bit easier than in some of her other books. Anyone with a little knowledge of fondant should be able to easily make them. They are all in fondant so if you do not like to work with it I would not recommend this book. As usual, the instructions are generally clear and with sufficient pictures. Although I was disappointed, it was solely because of the age factor. It is an excellent book and, if you are looking for a lot of great ideas for cakes for young children, I would highly recommend it. The star off is solely for not making it clearer that it is a book for young children. 2 of 2 people found the following review helpful. Simple and Colorful By Dianne is an Customer Bought this as a gift for my teen daughter, a budding and talented cake decorator. The gift worked out well for me too as I was the recipient of some baked goods she had gotten ideas for from the book!

If you're planning a party and pressed for time, look no further! This collection of striking yet simple cake designs is guaranteed to provide the solution. These eye-catching cakes are surprisingly easy to make.

"Each cake recipe is explained very clearly in her step by step instructions accompanied with colour photos. I really enjoy using this book as it comes with so many ideas for me to try out!" —ET Speaks from Home blog About the Author Debbie Brown
