0 of 0 people found the following review helpful. Title is correct. I won't need another cake book ...By Marilyn Hennecken Title is correct. I won't need another cake book. 4 of 4 people found the following review helpful. Great start for cake basics By Lehigh History Student The 500 Cakes provides 125 recipes for a variety of cakes from everyday use to special occasions. Each of the 125 recipes has four minor variations that tweak the item into a different version by adding a new flavor profile. Overall it is an average cookbook but for those who are skilled in baking like my wife it provides base recipes that can then be used to make their own variations while using this as a widespread springboard and because the recipes are chosen for easy variations they lend themselves to creating your own as well. We have only found a few recipes to be a little vague on the directions but overall have not had too many problems with this book. Overall well recommended for those that are looking for a lot of cake recipes that can be built on. As to the other reviewers comments we have not found the recipes to come out dry although we have not yet

done the section of the cookbook they were on. The cheesecakes work very well and the frosting recipes are a particular good find in this book. As always with the 500 series it is important to note that they do not take into account things like altitude or humidity variations but if you are familiar with how that changes the cooking in your area this is a great book to have. 1 of 1 people found the following review helpful. Packing in a huge variety of recipes By Midwest Book Review From quick and easy refrigerator cakes to gluten-free cakes and pound cakes, 500 CAKES is packed with quick, easy cake recipes paired with color photos on facing pages. It's an outstanding collection certain to prove a winning pick for libraries and personal collections alike, packing in a huge variety of recipes.

There is no more fitting conclusion to a celebration, special meal, or a simple, soothing cup of tea or coffee than cake. 500 Cakes has the right recipe for absolutely any occasion: a birthday or anniversary party, an informal gathering of friends, a wedding reception - you name it. From easy refrigerator cakes to elaborate creamy gateaux, from delicious gluten-free cakes to sumptuous layered confections, this book covers all styles and flavors of cakes, for adults, children, 'tweens, and everyone else!

About the Author Susannah Blake is the author of 500 Appetizers and 500 Soups, as well as six previous books on baking. She has many years experience in cookbook publishing, commissioning, art-directing, and editing illustrated food titles.
