1 of 1 people found the following review helpful. love it!By Miriam RamosSmall compact book full of yummy treats that are easy to make from beginner like myself to pro. However, it does not contain a section explaining measurements, volumes, weighing etc. I had to do the research elsewhere, other than that, I highly recommend this book. I just love it.0 of 0 people found the following review helpful. 500 CookiesBy Trinna BellI have this book in hard cover. It is a very good cookie cook book. They offer a lot of veriations to one recipe. I just lovethis book.0 of 1 people found the following review helpful. Torn from the bindingBy Kendall E. DepascalThe book itself hs great recipes, but the used version I received was torn from the binding - so I was disappointed. When a few pages are torn no big deal, but in my case ALL the pages were torn, so I don't expect this book to last long - the binding is all but gone so this book is pretty much worthless at this point.
