Not Me.By MaryTo be fair it is 500 recipes and that is amazing, until you realize every single one calls for cake flour. Cake flour is so expensive. So now I have 500 recipes I might bake every once in a blue moon. And yes, I know the cake flour substitution but it is not the same. Disappointed.0 of 0 people found the following review helpful. Recommend!By JessiHave tried several recipes from this book and they have all been amazing. I know I can find anything I need here!2 of 2 people found the following review helpful. A delicious readBy jennifer diazI'm definitely not a baker but the recipes in this book were fairly easy to follow. I had a baby shower to throw and decided to make cupcake party favors.....banana cup cakes, peanut butter cream cheese frosting, and a caramelized banana slice on top. Delicious. I was able to mix and match frosting and cupcakes to create my own creation.
