Euan Mitchell : A Wee Guide To Whisky (Scottish Pocket History) (WEE Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised A Wee Guide To Whisky (Scottish Pocket History) (WEE Guides):

0 of 1 people found the following review helpful. A gift for my son-in-law
By Kay J. Rew
My son-in-law is of Scottish and Irish ancestry and loved receiving *A Wee Guide to Whiskey* in his Christmas stocking this year. I have no doubt that he will read it bit by bit and thoroughly enjoy it.

Whiskey- uisge beatha, Gaelic for "water of life"- is now one of the country's largest exports, but it has been drunk in Scotland for many hundreds of years. Now updated, redesigned and completely revised, this very popular *Wee Guide* covers the history and development of whisky, the early days of illicit distilling, how whisky is made, and the different characters of malt whiskies from around the country. The book includes forty-eight distilleries which can be visited, as well as museums and shops, with opening, websites and contact details, plus a map and more than 100 photographs.
