them. If this is how you think, like me, then yoursquoll enjoy The Absolute Best Dump Cake Cookbook: More Than 60 Tasty Dump Cakes. This cookbook is packed with recipes that build on one basic idea. A cake mix, butter and some toppings make magic. The initial instructions explain how this all work and even give ideas on how to make them in the slow cooker. Then there are chapters devoted to different kinds of dump cakes (therersquos a whole chapter on chocolate cakes and another one dedicated to fall flavors!). The recipes are easy to make from stuff that you would have in the kitchen, or you could easily pick up on your way home from work. I like that these recipes arenrsquot much harder than turning on the oven and opening a box. I was reading these recipes last night in the middle of the night, and I seriously thought about getting out of bed to bake. Few cookbooks get me this motivated! I did receive this book for free to review. Glad I did.29 of 30 people found the following review helpful. it's always fun to have something tasty for dessert after a busy ...By bjGiven the fact that, when it comes to baking, I'm more of an assembler than an actual baker. That said, it's always fun to havesomething tasty for dessert after a busy day or for a special occasion. These recipes might not make "Cake Boss" but for the everyday, hurried family it's a delicious route to a sweet treat. Imagine, this book contains sixty recipes, so it's hard to imaginea recipe that won't be a crowd pleaser in this collection. "Amazingly Easy" is the right description for the recipes found in TheAbsolute Best Dump Cake Cook Book. There's real truth in advertising. Tips regarding the right cake mix, reducing fat and sugars in the dessert, additions to the base recipe and the "Make Your Own Cake Mix" chapter are all a value. Recipes designed for specific diet considerations. I love microwave cooking, so that tip was great, too. The slow-cooker recipes for; pumpkin and apple, and peach, allows the cook to attend to errands or end of day business and still have a wonderfully scented dessert. It's a win-win.22 of 23 people found the following review helpful. A Whole New World of Dump Cake!By KaraThis book opens up a whole new world of dump-cake recipes! I never knew that there were so many ways you could change up this simple recipe. Dump cake is all about putting some fruit or chocolate in, pouring in the cake mix, and watching it happen. The book has a great list of tips, and the recipes are varied. While dump cakes are supposedly easy enough for a five-year-old to make, it doesnrsquot mean there isnrsquot a lot of innovation involved. I also learned some interesting history, facts and tips for making each one in the descriptions above each recipe. The only thing that would make this book better is more pictures! I received the book at no charge in return for providing my review.
