don't, they see what they can add instead. The Absolute Best Mug Cakes Cookbook is the perfect title. The directions are very easy to understand. The ingredients for the most part are either in your pantry now or easily gotten at the local grocery store. I am so glad for this cookbook! With the clearly written how's and why's I can whip up a yummy treat without a whole lot of mess. Especially if I don't want to share!! I received this book in exchange for an honest review. I really did try out some of the different mug cakes to form my opinion. This will remain on my Kindle. 0 of 0 people found the following review helpful. Title is True: The Absolute Best Mug Cakes Cookbook By Pat Mogford This cookbook book showed up on my daily BookBub email for a couple of dollars (Kindle version), so I thought, what the heck? I'll get it. I am not sorry I did, except for all the extra calories I am now consuming. Not only does it have plenty of recipes for all kinds of cakes, it has other great information too. Perfect for making cakes with a child, as the recipes don't involve a lot of ingredients or use of a mixer. Perfect for seniors, too. Each recipe makes two mug cakes and uses ingredients even an occasional cook/baker would have on hand. It's the perfect way to satisfy a craving for cake without having to go to the trouble of making a whole one. This cookbook would make a great gift. 4 of 4 people found the following review helpful. But I really liked the book--and ordered a 2nd one for myself :)
