Little detailBy Emily OlsonI was traveling across Africa, and I brought this book as a reference to wineries in countries that aren't considered traditional wine centers. It was a fascinating read, but it didn't help with finding and visiting any of the wineries described in the chapters. A new addition with more details would be helpful.1 of 2 people found the following review helpful. Outstanding stories, great first hand styleBy Tracy CervelloneA fantastic collection of real wine/Winery stories from a completely ignored historic wine producing region. A wonderful work, and a great read.

Best-selling wine journalists John and Erica Platter explore the wines of Africa, from Ethiopia to Zimbabwe, in this one-of-a-kind travel and tasting book. While most readers will not have the opportunity to taste the wines of Kenya,

Tanzania, Madagascar, Reunion, and Mauritius, these two peripatetic South African wine writers share their sniffing, spitting, and swallowing experiences, allowing all to experience the unique wines of Africa.

A true adventure, wonderfully told...vivid and absorbing. The most original wine book in years. -- Hugh Johnson  
Wise and visionary...as broad as Africa itself. As a travel book it's unrivaled. --Jancis Robinson
