Instructables.com : Amazing Cakes: Recipes for the World's Most Unusual, Creative, and Customizable Cakes before purchasing it in order to gauge whether or not it would be worth my time, and all praised Amazing Cakes: Recipes for the World's Most Unusual, Creative, and Customizable Cakes:

5 of 5 people found the following review helpful. content too limited By responder I was expecting a book comparable

to a cookbook in terms of how many cakes would be shown. Instead, the book had a very small number of cakes, and the ones on the cover were the main ones. I just expected more. 3 of 3 people found the following review helpful.
VERY DISAPPOINTING! By Sondra Burke This book leaves a lot to be desired. First, each one was a federal project. Second, each one called for something I do not have on hand (zig-zag knife) or such. Third, most of these recipes were for children's cakes. As I said, very disappointing, 1 of 2 people found the following review helpful. really amazing cakes
By Cathy A. Davis great book, prompt delivery, new and different ideas never see before, never dreamed I would be able to make some of these cakes but full instructions and photos are included easy enough for even me to do

Rubik's cubes, fire-breathing dragons, and jack-o-lanterns. Pirate ships, pianos, and Star Wars figurines. With Instructables.com's Amazing Cakes, you'll be able to make cakes shaped like animals, mythical creatures, and vehicles. They may light up, breathe fire, or blow bubbles or smoke. They may be 3D or they may be animated, seeming to move of their own free will. Whether they're cute and cuddly (like a penguin) or sticky and gross (like a human brain!), these cakes have two things in common: They're (mostly) edible and they're amazing! Instructables.com authors walk you through each step of the process as you cut plywood for cake bases, hardwire figurines for automation, and mix nontoxic chemicals for explosions and eruptions. The photos accompanying the step-by-step directions provide additional information about the processes and enable you to compare your final products with the originals created by the expert cake artists of Instructables.com. In addition to the cakes mentioned above, you'll also learn how to make cakes shaped like:

- Yoda
- Helicopters
- 3D dinosaurs
- Moving tanks
- Pi signs (p)
- Bass fish
- Zombie heads
- Swimming pools
- Ladybugs
- Evil clowns
- And more!

About the Author Instructables.com is a bona fide Internet sensation, a web-based community of motivated do-it-yourselfers who contribute invaluable how-to guides to the site on a wide range of topics, from gardening and home repair to recipes to gadgets that defy categorization. The site hosts more than 100,000 projects. More than 15 million people visit the site each month, leaving comments and suggestions on the ever-growing list of do-it-yourself projects. Sarah James is the editor of many top ebooks and the Food Living channels on Instructables.com. Previously, she was a tailor for American Conservatory Theater, worked as a make-up artist for Blue Man Group, and starred in a national tour of an original play. Part-time mathemagician, bespoke suit tailor, mask maker, and NYT crossword master, Sarah received her MFA in theatrical design and technology from UT-Austin. Check out her crazy projects including everything from tiny food on sticks to epic glowing costumes at www.instructables.com/scoochmaroo.
