I bought it on here again because it's my favorite cookbook to use! Every recipe I've made from this book has turned out amazing with having to do little to no changes in the actual recipe. The illustrations are great and there is some awesome information on how to pair beer with food. I would recommend using this for yourself or giving it as a gift! 0 of 0 people found the following review helpful. My new Fav!! By jnmboro I love to cook and I have a recipe book collection, but this compilation of recipes is my new go-to reference for breakfast, lunch and dinner! Simple appetizers, delicious soups, salads, steaks, seafood, etc. Ingredients requirements are everyday foods, nothing that can't be found in your grocery store. Beer pairing suggestions are fantastic and great

options for trying new brews. Lovely ideas for dinner parties or a romantic dinner for two. Enjoy.0 of 0 people found the following review helpful. Five StarsBy Laura HadleyAll that I hoped it would be.
