Edge is the guide through different anecdotes, stories and legends about apple pie through the ages. The book is not just all writing. It also features different pie recipes.The digital version is quite good. The default font is easy to read and quite pleasing.1 of 1 people found the following review helpful. Nice stories about cruising the country for pie... and a few recipesBy peg2This book is a quick, fun read. I was paging through it last night, and now I have an itch to do a cross-country road trip. My first stop will be for one of those apple pie shakes in Iowa City... or maybe I'll drive out there (229 miles from here) this afternoon. I was with Mr. Edge the whole way, elated with the pies that lived up to their billings, and disappointed in those which, well, didn't. Any book that makes me want pie badly enough to

consider making one from scratch is a pretty good book.0 of 0 people found the following review helpful. Recipe storybook not a children"s book.By Tarrish Martinwrong book!
