John McLure, John McClure : Baba a Louis Bakery Bread Book: The Secret Book of the Bread before purchasing it in order to gage whether or not it would be worth my time, and all praised Baba a Louis Bakery Bread Book: The Secret Book of the Bread:

The recipe directions were easy to follow - the only drawback was the omission of time and temperature for baking. The croissants were almost as good as the ones we had in France last summer - with practice I hope to match that quality. Other bread recipes in this book look worth trying, too. When the book wasn't available in my own local library, I knew I needed to buy a copy for myself.0 of 0 people found the following review helpful.
