Sandra Lee : Bake Sale Cookbook before purchasing it in order to gage whether or not it would be worth my time, and all praised Bake Sale Cookbook:

While it does include some great looking recipes I found not all of them would be good for a Bake Sale.. as I have never seen Ice Cream goodies. Those recipes would be great for an Ice Cream Social format. Also the presentations are nice..BUT there is not even very basic information about them. There is one page of ideas at the front of the book and that is it- other than showing the finished goods packaged up. It also shows a picture of Ms. Lee holding a tray of "Cake Balls/ Pops" looking like dropped ice cream cones, but no where in the book does it feature those. It is a lovely book, wonderful pictures and I do look forward to making some of the recipes for an upcoming Bake Sale to raise funds for a local woman's shelter. However I felt some what deceived by the promises, that for me at least we not met.0 of 0 people found the following review helpful. Five StarsBy CustomerI love this cook book. and came in great shape.14 of 16 people found the following review helpful. Delicious recipes for bake sales or any occasion!By J. KennelI saw Sandra Lee baking recipes from this book on a morning show this week, so I thought I'd try it out. There are gorgeous photos of every dessert, so the presentations look like they are ready for a bake sale. If you bake from scratch you may not like her shortcuts using prepared mixes and some ready made icings, BUT this book is a winner even just to learn good presentations or get ideas for your own recipes from scratch. The

little details she does make her presentations beautiful. I am not a great cook, and I need the pictures of what the final product should look like, so I love this book. Colorful, cheerful, easy for any cook, and includes baking tips to make the baked goods come out looking really irresistible. Directions, time needed, yield, and ingredients are all laid out very simply, so you can see if you have the time and have the ingredients on hand for a recipe. There are cookies, brownies, bars, cakes, cupcakes, fruits, candies, pies, truffles, and breads. She has a section showing "cookiescapes" and how to make small theme baskets for bake sales and holidays. Here are just a few of the recipes I found unique: Pear Cinnamon Charlotte, Butter Toffee Flower Sandwiches, Root Beer Cupcakes, Cream Marzipan Cake, White Chocolate Macadamia Cake, Custard Filled Cake, Plum Apricot Clafouti, Caramel Apple Muffin Melts, Triple Blueberry Pie, and Rocky Road Parfaits. Plenty for both children and adults to love! I'm off to the kitchen. Two thumbs up from my house. This is a soft cover book, but still very nice to give as a gift.
