By LucidityMy Kindle is full of various types of recipe books and I haven't been tempted to download any more until I came across this - a thousand recipes for \$1? Hard to resist. Though, of course, you can put a low price on anything and from my experience, a lot of kindle books are the 'you get what you pay for' kind. That being said, Emma Katiers's baking recipe book is far from this and in fact offers much more than I was expecting. The recipes are laid out in a clear, instructional manner and, most importantly, the foods all seem tasty and of a high quality (my favorite so far being the Walnut Banana Muffins). One thing that particularly stood out to me is how the nutritional values are also mentioned - I'm currently watching my caloric intake at the moment, so this is of course very welcome.

By ArtistI just moved into a new apartment with a huge kitchen and was getting that winter season itch to bake. I love how this book has pretty much any baking recipe you can think of. Some of my favorites so far are the yogurt strawberry cake, apple and pear molasses cake, sweet potato bundt cake, blackberry ginger cheesecake, and I want to try making the citrus pudding sometime next week. I like how this book also has the calories, fat, protein and carbs per serving at the end of each recipe. I am thinking about trying to make the fresh ginger muffins tomorrow, I love ginger so much. If your looking for things to bake, traditional or unusual new recipes this book is great it contains both.

By ShayThere are so many awesome recipes in this book. One of my favorite things to eat is sweets. I don't always want to spend money to go out and buy them and with the 1001 Best Baking Recipes of all time I don't have to. I have 2 young children that love sweets just as much as I do. I decided to go ahead and purchase the book because of all the great reviews. The recipes are so simple to follow and absolutely delicious. I honestly could not believe that I had made something that was so tasty. From this book I have found a new hobby in cooking and the kids absolutely love it. This will be my go to guide for cooking some awesome deserts. Thank you Emma!
