Thanks for such a creative idea!" ... said no one ever. And yet, I have made several such "creative" gifts to people because I could not come up with something original quickly, or because I did not very well what they liked. Well, at least I did not show up empty-handed, right? This small book hopefully ends my (and my friend's) misery. Even if I need a gift for tonight, the recipes in this ebook are all a matter of walking over to the supermarket, buying a few ingredients, and stuffing them in a jar. And it has that hand-made feel to it, which a bottle of liquor off the shelf is usually lacking. "I could come up with stuff like this myself!" -- well, I'm sure I couldn't, because not only do these mixes look fantastic while inside the jar, they also taste really awesome! I've bought this

book just now, but I already tried the brownie baking mix from the gift blog of JoinMyGift (<http://www.joinmygift.com/blog/en/home-made-brownie-baking-mix-in-a-jar/>). They were very tasty, and composing the mix in the jar is quickly done, and a lot of fun. Hey, it felt as if I actually accomplished something! :) Also, you can never go wrong with giving tasty and self-made things as gifts, right? Just make sure that whoever receives the gift has the few things required to bake the mix, like an oven. Or, you know, just add what's missing to the gift. ;) I'm keeping this ebook handy for when I need a last-minute gift idea, or for when I crave a good brownie myself. After all, nobody forbids skipping the put-stuff-in-a-jar step and just baking stuff for yourself! :P 0 of 0 people found the following review helpful.
