Gabriella Owens : BBQ Pizza: A Flaming Expose On Macho Cooking before purchasing it in order to gage whether or not it would be worth my time, and all praised BBQ Pizza: A Flaming Expose On Macho Cooking:

0 of 0 people found the following review helpful. Both funny and practicalBy bsLoved it, practical guide to making pizza on the bar-b-q. Loaded with recipes and ideas. I have attended one of the authors Pizza Parties and didn't know there was a book involved. A fast and easy way to get all the dough recipes and a good laugh at the same time.0 of 0 people found the following review helpful. BBQ pizzaBy titangall love this cookbook! Easy to follow recipes funny

anecdotes great ideas that are easy to customize to your own tastes. Even if you've never tried (or thought you'd want to try) grilling pizza, just do it! You will be surprised at how easy tasty it can be! And most recipes suggest a wine or beer pairing making for a complete experience! 0 of 0 people found the following review helpful. Entertaining! By CustomerI happened to have met the author of this book at my job and she was funny so I bought the book and found it to be funny as well. I can also relate to most of the things discussed in this book. I have tried some of the recipes and they are very good. Thank you.

Everything you need to know about barbeque pizza. Naturally there are lots of pizza recipes; the tried and true favorite pizzas as well as exciting new pizza ideas. All with the right proportions of ingredients so you get it right the first time. There are several simple and delicious pizza dough recipes. (Beer dough is my husband's favorite.) It has some tasty pizza sauce recipes to bring out your inner Italian. The book also includes some seafood and vegetarian pizzas. The very best part is the entire chapter on dessert pizzas! Dessert pizzas are a HUGE hit with kids of all ages! My friends are always impressed with these! I have included lots of tips for throwing a fun pizza party, with an ingredient checklist to make your get together go smoothly. People love to come over and make pizzas! Everyone enjoys experimenting and discussing the best pizzas. Each pizza recipe comes with a suggestion for a wonderful wine or craft beer pairing. The wines and beers are not just excellent, most are also outstanding values, so you can afford to serve them at a pizza party. My book also goes over the right equipment for pizza making, including the best type of pizza stone for barbequing. Everyone's favorite part of this book is the description of mistakes to avoid when grilling pizza. I have compiled a lot of data on what NOT to do when BBQing pizza. Happy Grilling! "What a great read! Such an entertaining book! It's Erma Bombeck meets Ina Garten! Fabulicious!" ~ G. M. DePriest

About the AuthorAbout the Author I was supposed to spend my life lounging on the French Riviera with a fancy cocktail in my hand, but somehow I got turned around and ended up in California with a glass of wine instead. Which is pretty darn close, except for that pesky working thing. I'm past that wonderful, awful stage of raising kids. My husband of 30 years, Greg, and I are now into that really fun spoiling grandkids part of life. (Fill them full of sugar, tire them out and spoil them rotten. When they become totally impossible, hand them back.) We also have an assortment of rescued pets and a small vineyard in the backyard. As a member of the California Writers Club, I'm enjoying writing and sharing my jokes and stories with others. I'm hoping one day writing will replace the blasted job. Some of you have read this hoping to understand the workings of this author's mind. Let me clarify for you: This author is a few sandwiches short of a picnic. Why do you think I had to make all those pizzas? There just weren't enough sandwiches to go around. Not to mention a banana split sandwich just doesn't sound appetizing. About the Cartoonist Jack Russo grew up in the San Fernando Valley in the 1960's with a steady diet of Mad Magazine and the works of R. Crumb. His irreverent humor displays a total disregard for the opinion of the reader, and no topic is off limits. He is pretty much a whack job with a pen, and can turn a blank piece of paper into a potential lawsuit in just a few minutes. How did he become this way? We think that either he was dropped on his head when he was a baby or there was too much mercury in his fillings. He has worked for a utility company since 1983 and more of his cartoons can be seen at <http://gascartoons.com>.
