I lent my book to a family member and it was not returned so in a panic I looked on and found it and ordered it right away. It was like Christmas the day it was delivered. YEAH Thank you for the great customer service and delivery0 of 0 people found the following review helpful. Bread Cookbook ReviewBy dqThis bread cookbook is very easy to use and has many tips and clear, concise mixing directions, as well as optional ideas.0 of 0 people found the following review helpful. good basic bookBy R. diciaccoI have a few books and like this one the most. I copied down the recipes that I used most often. I find with any recipe I might tweak here and there but some of the recipes within this book are just darn good.

Gives more than one hundred creative, kitchen-tested recipes, approved to work in many different bread machines, as well as informative profiles of various machines, guidelines on bread making techniques, and a convenient spiral binding.
