Betty Crocker : Betty Crocker Kids Cook! before purchasing it in order to gage whether or not it would be worth my time, and all praised Betty Crocker Kids Cook!:

2 of 2 people found the following review helpful. Fun for Young ChefsBy Pam WaltonThis is a great cookbook for beginning chefs. Fun, colorful, easy to follow. (Bonus: Nana gets yummy, homemade treats!) There seems to be two versions of this cookbook by the same title and this crazy monster one is the winner for us. Unfortunately, think it's only available used and ours came with a page torn out and the cover heavily damaged, despite being described as "Good" condition, so beware.4 of 4 people found the following review helpful. Wish it didn't focus on BisquickBy StephGatorI bought this book to get my 4-year-old interested in cooking. It is a little too advanced for her, but she loves looking at the pictures. My husband and I have reviewed all of the recipes and look forward to making them with her in the future. My only complaint is that there are a few recipes that rely on Bisquick. I understand that this is a Betty Crocker cookbook, but I prefer to make things from scratch. I just don't keep Bisquick around and don't want to purchase it only for the rare occasion when we make something that calls for a bit of Bisquick. For now, I'll try substituting flour, and maybe a bit of baking soda.I probably would have purchased another kids cookbook had I known about the Bisquick issue, but overall I'm really happy with the book because it got both my daughter and

husband interested in planning meals. 0 of 0 people found the following review helpful. This was a big hit with my granddaughter for her ...By Ellen M. Godfrey This was a big hit with my granddaughter for her birthday. She was so excited to have her own cookbook.

Hey Kids-Let's Get Cooking! Easy Over 60 simple recipes show you how to fix every meal of the day plus snacks and desserts.
