I was visiting her when she made bread that smelled so good... Recipe from this book reminded me of what I was missing. I ordered my book copy and love it. Thanks for it to be in such good condition and the rapid shipment. 0 of 0 people found the following review helpful. This book... wow By Audrey I know it seems kinda old and hackneyed, but omg, the recipes in here are to die for. This is actually my second copy because the first has become so well-used that I need another. All the recipes work, and work well; besides that, I actually can't find them online (which is kinda amazing). I started out baking with this book and have come so far employing the techniques found in here. It's not a big book, but boy, does it provide a great foundation for experimenting and coming up with your own variations on their recipes. 0 of 0 people found the following review helpful. Wore this book out, had to order a new ... By NAnk67 Wore this book out, had to order a new one while still available. I bought this book over twenty years ago, my husband and I are asked to make the rolls for every holiday. There are recipes for every level of baking.

Paperback, as pictured; 72 pages; mild cover flaws, as shown; text is excellent (ck)
