It contains ALL of her older, full-fat, yummy versions of the recipes I've cooked my whole adult life. When my daughter comes home to visit, she inevitably asks for something that comes out of this book. I purchased one for her as a gift. The best part about these versions of the BC recipes is you can lighten them up based on healthier cooking OR you can double or even triple the recipes as needed. My book is in tatters and still gets pulled out once or twice a week (how long does that pork roast stay in the over again??) This is a go-to cookbook and a shame it's out of print. BC's newer cookbooks focus on healthier cooking, but hey, sometimes you just need your Grandma's 1970's version of Beef Stroganoff for dinner :) 0 of 0 people found the following review helpful.
