My original one was purchased when my children were little and when the family broke up one of the kids wanted it so I let it go. It had hand prints and finger marks on favorite pages, cute things written in the margins, all little memories of wonderful time spent with the kids. I know this isn't the original but it does bring back the memories and even the smudge on the front is a loving memory. Thanks for this book.0 of 0 people found the following review helpful. This is one of my two "go to" cookbooks. ...By MarciaThis is one of my two "go to" cookbooks. Have used for over thirty years, and very surprised that I found it on since it out of date. My granddaughter announced that she wanted to learn how to cook, so I had to get a copy for her!!0 of 0 people found the following review helpful. PerfectBy Dorothy RexYou could tell the book was used. The recipes are all intact however. I feel satisfied that I could get a copy of such an outdated book
