Betty Crocker : Betty Crocker's Outdoor Cook Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Betty Crocker's Outdoor Cook Book:

3 of 3 people found the following review helpful. Classic outdoor entertaining with panache!By Reine des CoeursI'm a first time outdoor entertainer and the many, many books on grilling and entertaining were enough to confuse me and make me want to head right back indoors. Instead of a complete retreat, however, I decided to start with the classics. Boy, am I glad I did because this cookbook is a little piece of heaven. If you happen not to have a propane based grill, you will find step by step instructions on how to start and man the flames on charcoal briquet grills, kindling based grills and even instructions on how to set up outdoor grills on the shore and on the road when camping. The book gives you instruction on how to trim your meat based upon the grill you're using as well as clean-up advice. There are plenty of barbecue themes included (Steak Barbecue, Burger N'Bean Barbecue, Beef Kebob Barbecue) as well as recipes that are easy to make and adapt for today's palates. Most importantly, this book will provide the necessary element to any outdoor entertaining, whether this be a casual barbecue or a fancy picnic - fun.1 of 1 people found the following review helpful. Retro Cookbook That Still Applies TodayBy Melanie LivelyGreat retro cookbook that is just as useful today. Focuses mainly on charcoal grilling, so it would be fantastic if you're a charcoal enthusiast. Good recipes. Covers everything from basic burgers n' hot dogs to steaks, poultry and seafood. Even gives instructions on how to dig a pit and do a full-blown clambake! Lots of recipes, including desserts. Much more than a lot of books that rely on "open a can of this or a box of that." I love it!0 of 0 people found the following review helpful. Can't wait to read it from cover to coverBy maribethI book was delivered today and I can't wait to read it from cover to cover!! It's

in absolutely perfect condition! I recently discovered a new love of cookbooks from the 1950's-1960's and this, I'm sure, will be one I keep!!! I definitely will buy from this seller again!!

General Mills (1961), Spiral-bound Hardcover, 176 pages. This is not a reproduction. This is the original cookbook.
