From Brand: Silverback Books : Beyond Wok (Beyond Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Beyond Wok (Beyond Series):

Jacks I wanted to start trying my hand at cooking at home with a wok, so I bought this book at a used book store hoping it would give me a few good tips and ideas. All I really ending up noticing was the poor correlations between the photos and the food descriptions. For a book entitled Beyond Wok, I guess I was just expecting a higher quality book than one filled with such obvious mistakes. 1) Recipe called "Zesty Stir Fried Broccoli" - no broccoli in the photo at all, but they very obviously used brussel sprouts instead. 2) Recipe called "Golden Chicken Curry" calls for boneless skinless chicken thighs, there are obviously chicken legs in photo of the finished meal. 3) Recipe called "Bami Goreng" - it describes how to make the pancake garnishes, but they don't appear in the final photo. Maybe I am being overly critical, but these oversights really take away from the books credibility.
