Better Homes and Gardens cookbooks for decades, and this is a favorite. It expands your crockpot from a basic stew to a gourmet delight. The book begins with a instructions for selecting a slow cooker if you don't already have one to idiot-proof instructions for use. (This is a great gift option if you're giving a crockpot to a new bride or as a housewarming present).The recipe selection itself ranges from party dips to full main dishes. Options for every type of meal are included - even breakfast! Working people will find this a lifesaver - throw in the ingredients, turn on the slow cooker, and you've got a hot meal waiting when you get home.I really loved the Cashew Chicken and Balsamic Pork Roast. Can't wait to try the others!
