One of my favorite cookbooks!By Travelover1I bought this because a friend of mine has one and I just love the recipes. It's Australian so some of the ingredients are listed differently than an American would list them (i.e. for Copha I used

coconut oil) but the recipes are delicious and nicely different. Everything I have made or tasted so far has been delicious. I have a lot of cookbooks and this will be one I use a lot.0 of 0 people found the following review helpful.
