As usual I had first checked it out at my library and was certain I would like my own copy. This book came to me in brand new condition and I am extremely pleased with it. By knowing the book ahead of time I am never disappointed with it when it becomes my own copy. is always the way to buy and I can not recommend it too highly. Fast service and no surprises! The used book dealers that work with are the best. 3 of 3 people found the following review helpful. Like it! By JennSo, browsed through this book the minute it arrived. Loving the selection of recipes and always love "easy" recipes - casseroles! The only thing I don't like is the recipes call for some "instant" stuff: lots of mushroom soup for the bases and soup mixes for spices. You can solve this by making some of your own spice mixes - Google search for these and I got a recipe for the soup base [...] Happy Cooking! 0 of 0 people found the following review helpful.
