I LOVE THIS BOOK!By MadeupaginFrom the very first recipe, which is exactly how I make my recipe, through pizza dough, French bread, hamburger buns, and BAGELS, this little book has them all covered. I will try the bagels in the morning.The best part of this book is you let your machine do most of the work for you. What a lot of bread machine owners don't realize is after the dough is made in the machine, you can take it from there. This book shows you how.I have always wanted to try bagels, and now I can. The only thing not here that I really want to try is hot dog buns. Who knows, I may adapt one of these recipes.Making a homemade pizza using your bread machine is so easy and so much more delicious. Get this book if your bread machine is just gathering dust. You'll wonder why you stopped using it. Oh yeah, funny shaped bread. Enjoy!1 of 1 people found the following review helpful. What a waste of moneyBy CustomerI bought a bread machine so I could make bread start to finish in the machine. These recipes have you using the bread machine then moving your dough and later cooking it in the oven. I can see that for pizza but not basic bread. I'm sorry I wasted my money.
