Fantastic book for bakersBy microjoeOne of the best baking bread books I have found. I would easily pay thru the nose for this book, and am glad to see that has copies still available. There are so many recipes for the busy baker, and those wanting to experiment. There are 64 recipes for baking powder biscuits alone. 200 plain and sweet bread recipes. 18 for buns, 11 gingerbread, 10 scones, 60 different roll recipes and so much more. i have very good luck with this book. I tried version from another year, but prefer the success rate of the recipes in the 1974 Dover edition. The paper and binding are higher quality, and the softcover is designed to open flat, when others will not. I recommend.

Great Recipes for Home-Made Bread, Rolls, Biscuits, Muffins
