I love that I can make my own pizza now. He's not afraid to give you recipes for a bread maker in case you are busy. This way I have not missed out on the bread making experience and when I have time I can make it by hand. I've learned so much from this book and love experimenting with my own variations now.0 of 0 people found the following review helpful. Love the books by Father DominicBy frances soucieThe book was in very good condition and came promptly. My daughter -in- law loved my copy and was always borrowing it. I was sad to see that it no longer was being printed but very happy to get a second hand copy. She was very pleased to get a copy of her own.
