The one on the "Glass City," my home town of Toledo, compliments another specifically on the famed Buckeye Brewery there. The amount of information conveyed and the rich array of illustrations makes this a "good buy" for anyone interested in the industrial history of the brewing

industry, in "breweriana" or in Toledo lore. He has set a high bar for similar publications in other states and other towns.

Part of the Brewing Beer In The Buckeye State series, Brewing Beer In The Glass City, Volume II gives a pictorial history of Toledo's Huebner, Finlay, Grasser Brand, Eagle, Home/Koerber, and Maumee/Lubeck Brewing Companies, along with the brewpubs of the modern era, most notably the Maumee Bay Brewery, operating today in a hotel building from the mid-1800s! 66 pages in length, the book contains 300+ images, most of which are in color, showing people, buildings, floor plans, advertising, labels, cans, and you name it! Explore the history of more than 170 years of brewing beer in the city (and see Volume I for the history of the Buckeye Brewing Company). Find out which Toledo brewery was partially owned by a noted mob boss, and which one was destroyed by a massive explosion!
