Artistic, Articulate, Appealing!By Milt ReynoldsWonderful book that combines early American history with detailed pencil illustrations of handmade bags, pouches, holsters, powder horns, knives, clothing, tools, shelter and frontier

recipes. The author includes photographs of his fellow members of a black powder shoot club, the Red River Renegades. Every chapter is extremely readable, with lots of great ideas, patterns and examples. A marvelous gem for anyone interested in frontier life, and an excellent companion book for "Wildwood Wisdom" by Ellsworth Jaeger. 2 of 2 people found the following review helpful. A great find! By dsmeaHas great photos for reference. A must have for any personal library. Great recipes to try and to share with other fellow enthusiasts of the great outdoors. I have bought several copies and given as gifts to my son's Scout leaders.

This is a sketchbook of design and comment, detailing how to make accoutrements and clothing of the American Frontier from 1700-1850. The book is complimented with sketches and many pictures to accent detail and illustrate the various pieces.
