**Robert M. Parker : Burgundy: A Comprehensive Guide to the Producers, Appellations, and Wines** before purchasing it in order to gage whether or not it would be worth my time, and all praised Burgundy: A Comprehensive Guide to the Producers, Appellations, and Wines:

0 of 0 people found the following review helpful. Not as comprehensive at the Coates book; coloured by Parkers wine

tastesBy Julian H ColmanThe book provides useful additional information and Parker's reviews. However, it is nowhere near as comprehensive as the Clive Coates book. And it is very much coloured by Parker's personal wine preferences, which favours wine with greater concentration. It is the world according to Parker. And it is now out of date. This being said, it was a useful addition to my Burgundy library. I like to read several points of view when considering a wine purchase. It would not have been my 1st Burgundy book purchase. The Coates book is still the seminal work. Great Domains of Burgundy was and would be my #2 purchase. I bought the Parker book at a used book price.0 of 0 people found the following review helpful. Comprehensive Review!By Al O.Very good book, great maps, commentary. Could use a little more info on wine-making styles, under-valued wines and special finds, otherwise it covers the region well.0 of 1 people found the following review helpful. Five StarsBy Brooklynboy'sFast service A+++

Today's most influential authority on wine offers the definitive guide to the most expensive and sought-after wines in the world: the wines of Burgundy. Including a detailed analysis of each district in the Burgundy region, from Chablis to Beaujolais, Parker provides an A to Z listing of 500 producers and describes their relative qualities and styles. 27 maps. 14 wood engravings.
