The moment I saw that Quinn, one of my favorite bloggers, had published a cookbook, I ordered my copy right away! When it arrived, I sat down to flip through it, and was impressed by the wide variety of mouth-watering cake recipes. I am very careful about what I feed my family, so the fact that these recipes all use real, fresh ingredients is important to me. I love the cake-baking tips and "troubleshooting" section that are included. And the recipes-- I don't know which one to try first! There is a beautiful assortment of fresh, new, creative cake flavors in this book. I can't wait to try the

Sweet Potato-Molasses Cupcakes, the Grape Cake, and the Strawberry Chamomile Cake. Oh, and that Dark Chocolate Cherry Pound Cake looks scrumptious too! I've tried several recipes from this author's blog and they have always turned out great, so I have no question that these cakes will be a success. Also, the quote from John Calvin in the front of the book was fantastic: a wonderful addition to the cookbook! I love it! I gave the book to my 6-year-old daughter and told her to bookmark the cakes she thought looked the best. Later that day, I picked up the book and found she had put a bookmark in the beginning of the book, and one in the Index, in the back. I said, "I thought you were going to mark the cakes you liked!" and she replied, "I did! I like all the ones between the bookmarks!" And my 4-year-old son has already requested Chocolate Kale Cake for his next birthday. All in all, this is a most lovely addition to my cookbook shelf! 1 of 1 people found the following review helpful. Even more impressed than I thought I would be!! By avarim18 I just received this in the mail today and it is a beautiful cookbook! The pictures are as decadent as the recipes. I am so impressed that the ingredient list really is just plain ol' ingredients, nothing fancy, but definitely items we've got growing in the garden right now. Quinn's blog is one that I enjoy reading often and I was very excited to hear that she was publishing this awesome resource. We grow most of the food we eat right here on the farm, so to have a cookbook like this that uses all that produce is great!! Quinn also includes a cake "how to" section which is really helpful - it addresses some important details about making sure your cake comes out just right! Now the only problem is choosing which recipe to start with!!! 1 of 1 people found the following review helpful. It's not a cookbook, it's a cakebook! By Avid Book Reader Fun farm market twists on classic cakes (like the German Chocolate Mash Potato Cake) as well as some really unique and mouthwatering choices if you want to try something new. (like Grape Cake). I like sneaking healthy foods into my sweet treats so options like Sweet Potato Molasses Cupcakes and Cocoa Beet Root Cake is a guilt free way of having your cake and eating it too! Looking forward to working my way through the whole book! I have tried other recipes from this author before and many have become family favorites!

With farm fresh ingredients that you can feel good about including in your family gatherings, *Cake Stand: Fresh from the Market Farmstead Cakes* offers 30 beautiful cakes for you to impress your guests. In *Cake Stand*, you'll find beautiful cakes that are made without artificial colors, flavorings, and preservatives that can't even be pronounced. You'll find recipes that include farm-fresh fruits, vegetables, and cheeses whether you grew them yourself, purchased them at the local farmer's market, or had them delivered in your CSA box. You can incorporate your healthy lifestyle into your celebrations and feel good about the choices you're making without resorting to a box cake and foil covered tub of frosting, the display cakes on the supermarket bakery shelf, or even no cake at all. *Cake Stand* will introduce you to scratch cake baking and walk you through the process of baking a standard layer cake. It will help to break down the wall of foodie legalism that has been preventing you from enjoying the occasional sweet with your family without being burdened by guilt. It will give you the freedom to enjoy a slice a cake or pie again and be able to focus on making precious memories with your loved ones that will last so much longer than any food will in your system. It will give you 30 scratch-made cake recipes, 23 frostings, and fillings, and countless combinations to create your own unique cake. *Cake Stand* will help you to know the extraordinarily gratifying feeling of setting a beautiful scratch-baked cake on the table and watching your family's eyes light up and smiles beaming. Some of the cakes you'll find in *Cake Stand* are: *Maple Pecan Cake with Fried Apples*; *Zucchini Cake*; *Peach Blueberry Bundt Cake*; *Strawberry Chamomile Cake*; *Sweet Potato Molasses Cupcakes*; *Toasted Coconut Cream Pound Cake*; *Harvest Apple Cake*; *Cocoa Beet Root Cake*; *Caramel Pear Upside Down Cake*; *Blackberry Apple Wooden Spoon Cake* and more!

About the Author Quinn is a homesteader's wife and mother to a whole bunch of farm kids, eight to be exact, and not the goat kind. She educates her children at home, loves turning homegrown foods into meals made from scratch, making farmstead soap, and hates cleaning the house. (She'd rather be outside puttering in the garden or scratching the cows behind their ears.) Devoted to serving the Lord and living an agrarian life, Quinn works alongside her family to grow, raise, and prepare most of their own food. She is committed to helping others realize their homestead dreams no matter where they are and encourages everyone to take an active role in their food production. She writes at *Reformation Acres*, sharing their journey and helping homesteaders keep the "simpler" life by managing orderly, abundant, and joyful farms.
