Exceptional Cakes and Figures with unbelievable creativityBy BluehorseGeraldine is an excellent teacher and renowned cake and sugar

artist! Her cakes in this book are well photographed and the instructions explained in detail so that the modest beginner can create them. Her hand molded figures like the clown, witch, etc. are so much fun to make and are lovely cake toppers. From her gorgeous wafer paper poinsettias to her darling sleeping baby cake the creativity is endless. There is always something new to be learned from her books. I highly recommend this book to anyone interested in making cakes whether professionally or just to have some fun in the kitchen. 1 of 1 people found the following review helpful.
