Natalie Saville, Jill Collins : Caketails: Intoxicating Cupcakes for Grown Ups before purchasing it in order to gage whether or not it would be worth my time, and all praised Caketails: Intoxicating Cupcakes for Grown Ups:

This sophisticated new book takes the humble cupcake, and yanks it up by its bootstraps into the adult world of alcohol, cocktails and pure indulgence. Although alcoholic cupcakes have been around for a while, this is the first book to reveal the secrets of how to make these deliciously decadent little mouthfuls. Whether you're planning on having a quiet little Valentine's tecirc;te-agrave;-tecirc;te for two, or a glittering Black Tie night of fun and sophistication for many, Jill Collins and Natalie Saville have designed a caketail to match. Cosmopolitans, martinis, pina coladas, mojitos..... All your favourite cocktails replicated in cake! The cupcakes are packed with alcohol, and are definitely an adult only treat - but also definitely one not to be missed. As well as reproducing the cocktail recipes faithfully in the cupcake to produce a taste to die for, the authors also suggest fun, stylish and sometimes quirky ways to decorate and present each caketail. This really is a must have book for any lover of cocktails, cupcakes and fun!
