Some of the real pioneers are still brewing great beer, but the writer has left them out of the story. A history of brewing in California that leaves out Carlos Sanchez at 6 Rivers is a travesty. He's the glue holding the Northern California brewing scene together. Nice idea to feature some great brewers but this is by no means the real story of California brewing... Nice arty book but don't count on it for anything more than just pretty pictures.1 of 1 people found the following review helpful.

Wonderful photos highlight the very best of California craft brewersBy Harry GWonderful photos highlight the very best of California craft brewers. An excellent survey of this vibrant scene. Best enjoyed with a cold one. Cheers!
