Excellent Pizza BookBy S KnausI have been making pizza using the thin crust recipe and the simple sauce recipe in this book and they have been outstanding. The key with any at home pizza is using a good quality pizza stone and an oven that can get high temps. I have an oven that goes to 550 and that combined with an 1 inch thick stone, this recipe works great with this setup. It is really a simple recipe and is ready in a couple of hours. The dough you can get very thin and is very flavorful. Overall, this book has lots of good pizza recipes that use a couple of different base crusts. I highly recommend this book if you want to start to make pizza at home that tastes like what you get at the restaurant.1 of 1 people found the following review helpful. Not a useful book - for kids only.By ulothrixThis is a really boring book filled with recipes for food that they do not have at the restaurant. I suppose it's useful if you have kids and want them to help in the kitchen, or for kids birthday parties, but otherwise there are no useful recipes. The other two CPK books are much better and have the recipes they use at the restaurant and recipes you would actually want to try.0 of 0 people found the following review helpful. Love the Avacado egg rolls!By Quilted HeadbangerI bought the book for the Avacado club egg rolls. I have made them and

they are awesome! There seems to be an error about the pizza dough but some books have a correction. See other comments. Love mine but only really wanted the one recipe.

From the Back Cover California Pizza Kitchen Family Cookbook "From the time we published our first cookbook in 1996, and probably from the time we opened the doors of the first CPK in 1985, we've known that a family cookbook was in our future. Our customers have always included families; that was our hope from the start. Food is an art that appeals to all of our senses. Teaching our children that cooking is fun can only help develop their love for food as well as a sense of accomplishment for their artistic creation." "We want to make our favorite—and your favorite—CPK specialties accessible to the whole family at home. So, we've taken care to make sure that all of the recipes in this book can be executed by anyone, regardless of age or culinary skill. Just as importantly, we want to inspire the whole family to create their own pizzas, panini sandwiches, salads, and desserts." "We already know that people love to congregate in the kitchen. Whether it's because of the enticing smells or the anticipation of a great meal, that's where people like to be. Preparing CPK dishes has the added appeal of allowing all of the participants to be creative. This isn't work, it's fun!"—Larry Flax and Rick Rosenfield
