**From Workman Publishing Co. : Cat Catalog: The Ultimate Cat Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised Cat Catalog: The Ultimate Cat Book:

1 of 1 people found the following review helpful. A delight for cat loversBy WhimsicalI think of this book as a compilation of cat magazines. Thereis so much information, oodles of neat facts, and answers to questions you never thought to ask it is aamazing. This has a little bit of every kind of knowlege available about fine felines. I got little taste of every fact and form of delivery I could ask for. WOW!!!! sooooo unique1 of 1 people found the following review helpful. Great book on catsBy David RobertsonThis is one of the best cat books I have seen. Lots of information, well presented. Recommended to any cat lover.0 of 0 people found the following review helpful. Cat book with unique entriesBy Laurie A. Brownldquo;Cat Catalogrdquo; is an overview of fall aspects of cat owning: history, legends, cats in art and literature, breeds, shows, reproduction, health, feeding, play, and products made for cats. That last bit is quite out of date, of course- these days, instead of just a few kitty boutiques, there are hundreds of Etsy sellers devoted to cat lsquo;stuffrsquo;! But most of the rest is still just as pertinent today as in 1982 (other than the part on feline leukemia- there is a vaccine now). Cat anatomy has not changed. There are several entries that are fairly unique to a cat book: cats in art, words and phrases inspired by cats, cats and writers, a very sad tale of losing a cat, cats as familiars, cat poems and fables, and the like. Those were the entries that really entertained me, having not found them in other books. But the best bit, to me? The first two pages of the book, before even the title page; itrsquo;s

a diptych of funny cats by Edward Gorey.
