GreatBy Ellis BakerI use this book and Ms Solomons Asian Cook Book constantly. Good for beginners and for old India hands alike.Its the benchmark that other Indian and Asian cookbooks aspire to top0 of 0 people found the following review helpful. Classic cookbookBy Jo CrabbI really love this book, the recipes I have tried have worked without any need to change anything, and have tasted great and been true to the region they're supposed to come from - we often forget how regional Indian cooking is. The section on ingredients and spices with their Indian and western names is useful too.
