Kevin Sinclair : China The Beautiful Cookbook before purchasing it in order to gauge whether or not it would be worth my time, and all praised China The Beautiful Cookbook:

0 of 0 people found the following review helpful. Beautiful book for the shelf By L. Ryzhova The book arrived in time in a very good condition. I was surprised how politicized the introduction was and many recipes were high end, more suitable for banquet style, then for everyday meal of average household. 1 of 2 people found the following review helpful. Chinese cooking at its best By AFajardo My whole family love this book, we have our favorite recipes within the book, we use it all the time, the recipes are easy to follow and the finished product taste like home cooking, each recipe has a picture of the finished dish, I like to see how my dish compares with the one on the book. This is a great book for anybody. 19 of 19 people found the following review helpful. I've been there- and this is for real By Chris T.

Dong This book encompasses all regions- not just Canton. And its genuinely authentic- just like what you would find at fine restaurants in China (i've been there). A lot of great regional recipes (good schezuan). If i had to pick one cookbook for restaurant style chinese food, this would be it. Note, though, that: a) its authentic and assumes some knowledge (not a starter cookbook); and b) its not exactly homestyle comfort food. The dishes are spectacular, though. Beautiful coffee table book.
