Willy Mark : Chinese Cookery Masterclass before purchasing it in order to gage whether or not it would be worth my time, and all praised Chinese Cookery Masterclass:

0 of 0 people found the following review helpful. A gem in my collectionBy C. J. ThompsonIt has been a quarter of a century now but I **think** I received this book and a companion volume of Japanese Cookery for a Christmas present. In either event, this book is, after 20 or 25 years, one of my special favorites. I have read, and now own, many, many more comprehensive books on Chinese cookery (both general and very specific), but this ragged, moth-eaten volume has a special appeal for me.When I am researching a particular recipe (let's say 'Gong Bao Ji Ding'), for instance), this is always one of my regular references. The illustrations are not extensive (about 1 picture per 2.5 recipes, I'd say), but there is a good introduction to each of the four culinary regions the book discusses. I think the publisher's should re-release great book with some factual updates and more extensive illustrations.

Book by Mark, Willy
