Eva Lee Jen : Chinese cooking in the American kitchen before purchasing it in order to gage whether or not it would be worth my time, and all praised Chinese cooking in the American kitchen:

0 of 1 people found the following review helpful. Great for Mom!By Michael R StametsI've been trying to get a decent Chinese meal out of my mom for years. Her technique was awful, and ingredient substitution even worse. I bought her a copy of "Chinese Cooking in the American Kitchen", and now she does much better. While not totally authentic, the recipes mean that mom can make something that looks good and has a realistically Chinese taste. Now I need to buy her a book about shining men's shoes and washing a convertible.
