**Wei-Chuan School, Wei-Chuan Publishing : Chinese Dim Sum: Wei-Chuan Cultural and Educational Foundation (Chinese Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Chinese Dim Sum: Wei-Chuan Cultural and Educational Foundation (Chinese Edition):

Most of the ingredients are readily available, and the ones that are not are easy enough to substitute. The directions for folding techniques are a bit vague,

but the pictures help compensate. Worst comes to worst, you just seal them however suits your skills. They will still taste good. I would recommend this to any dim sum fanatic. I actually found this book in a Barnes and Nobles in Manhattan. I paid full price for it because it loved the book. Then I came home and saw it discounted on [...] and ordered a copy from the website. After realizing I forgot to check , I found the book on for a much lower price. The book came in great shape and I returned my two Barnes and Nobles' copies. Overall, great book and great price. 0 of 0 people found the following review helpful. Great book! By What's That In My Coffee? Great book from a Taiwanese Library! Book came with film protection on the outer cover! 0 of 0 people found the following review helpful. Good book, authentic By David L. Cutler Excellent book. BUT if you are looking for many of the standard dim sum you would get from a cart, this is not the book. Instead get the Chinese Snack cookbook by Wei-Chuan.
